

BB-6K: 4.5m Cat Buoy

High Current Ocean
Meteorological data

BB-4K: Disc Buoy

Ocean &
Meteorological Data

Buoy #	Buoy Type	Description
BC-1K	Oceanographic Data Can Buoy (Cellular or RF telemetry)	1 meter diameter can buoy with 3 meter tower, flasher, radar reflector, solar panels, and instrument/battery well.
BC-2K	Oceanographic Data Can Buoy	1.3 meter can buoy for internal recording of oceanographic data. With flasher and battery.
BB-5K	Ocean/Met. Catamaran Buoy(Cellular or RF telemetry)	3 meter catamaran buoy for high current sites. Cat Buoy can be equipped with RF or Cellular data telemetry, 6 bulb changer flasher, solar power, instrument/battery compartment, and radar reflector/daymark.
BB-6K	Ocean/Met. Catamaran Buoy(Cellular or RF telemetry)	4.5 meter catamaran buoy for deep water, high current sites requiring a highly visible buoy. Can be equipped similar to the BB-5K.
BD-4K	Ocean/Met Disc Buoy (Cellular or RF telemetry)	2 meter disc buoy for medium currents ($\leq 2\text{m/s}$). Buoy can be equipped with RF or Cellular data telemetry, 6 bulb changer flasher, solar power, instrument / battery compartment, and radar reflector/ daymark/ Can be supplied in aluminum, steel, or self-fendering foam construction.
BD-5K	Ocean/Met Disc Buoy (Cellular or RF telemetry)	3 meter disc buoy for high current and open ocean. Buoy can be equipped similar to BD-4K
